Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

A. Claims 1-12 and 20-27 are drawn to an apparatus such as an optical head, classified in Class 369, subclass 44.11.

B. Claims 13-19 are drawn to a method of fabricating photodetector of an optical head monolithically on substrate, classified in Class 438/29, subclass 29 or in Class 372 subclass 50.

Inventions B and A are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the optical head and related functions does not require details of manufacturing photodetector of an optical head . The subcombination has separate utility such as with other circuits that uses monolithic photodetectors and require details of manufacture that is utilized in that particular category.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

2. A telephone call was made to Mr. Daniel J. Stanger on April 23, 2003; to request an oral election to the above restriction requirement, but did not result in an election being made.

NOTE: Mr. Stanger requested that a formal restriction be sent out for examination of the client.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
4. A shortened statutory period for response to this action is set to expire **1 (one) months and 0 (zero) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C. 133, M.P.E.P. 710.02, 710.02(b)).
